EDUCATIONAL CHAOS MAY BE REMEDIED

Work Of Group Investigating Trends Of Education Is Described By Speaker

The influence of the monastery n modern education and its func tions was the subject of a taik given by Dr. Scott Buchanan, visiting professor of liberal arts at the University of Chicago, yesterday aftrnoon in Memoriai hall.

The modern conception of the monastery is based upon three pre-mises, Doctor Buchanan told his audience. They were romantie they furnished a means of escape rom the realities of life, and they vere places of corruption.

Pointing out that the monastery etually gave modern civilization nucli of its basic groundwork, the speaker declared that our "cduca-tional chaos" might be clarified i we applied the monastic principl in our everyday lives.

Doctor Buchanan, who is a mem-per of the committee appointed by Pres. HERE SHALL THE KERNEL ALL STUDENT RIGHTS MAINTAIN

RHYTHM IS OUR BUSINESS

In eight days an empire might fall, the Supreme Court might be packed and unpacked or vice versa, a weapon such as the sit downs might be evolved to sweep every labor area in the nation, every building on the campus could be burned or razed, or some of the older ones might collapse, the University might receive an appro-

different campus groups. Anyway you look at it, six dances in eight days is a pretty well-filled social program for college students. The University might begin an advertising campaign to compete with Palm Beach for this year's crop of debutantes, or to draw some of the movie actors from Palm Springs.

THEM'S FINE WORDS, GOVERNOR

Acting-Gov. Keen Johnson, himself a newspaperman, told delegates to the Kentucky Intercollegiate Press association convention in Danville Friday in effect that new ideas, new political, economic or social theories, no matter how outlandish, strange, or - to use that greatest of all misappelations - radical, should be studied carefully, tolerantly, and intelligently, not superficially examined, then to be cast aside labelled "slush."

These words, particularly because they come from the second highest executive in the state, are hart-warming. They speak well for the future of the Commonwealth, too.

EVALUATING THE HONORARIES

On a campus which possesses so many honorary organizations that three-fourths of them are unknown to the average student, we hear the criticism that many of them are losing sight of their purposes, that they are accomplishing nothing useful, and are existing only to give individuals an opportunity to wear a pin or possess a key. Most of the members of such honoraries never know the purpose of their organization, have no knowledge of what the large national taxes are used for, and leel by the time of graduation, that membership was a useless waste of money.

There are, on the other hand, honoraries which are filling a definite need on the campus, which are giving to their members a sense of cooperation and a chance to do useful work with congenial students, and whose absence would deprive the University of very necessary groups.

Tonight in Patterson hall, all students are being given the opportunity, at the forum sponsored by the Y. W. C. A. and Y. M. C. A., to openly discuss the entire question of honoraries, to evaluate the organizations on the campus, and to hear what other students think about the same question. The forum will conclude the series, based on the "Students' Bill of Rights," which have been held weekly on problems of student government, student religion, and student freedom of opinion.

The discussion tonight will, if the students speak frankly and objectively, in all probability be an eye-opener for freshmen, a stimulant to sophomores, and a chance for juniors and seniors to "get plenty off their chests."

And they came from miles geous, around to crowd the junior prom past dancibility.

Limiting of Bids

Just how many blds were faked, no one will ever know. It would be well in the future to limit the bids to the dancable eapacity of the gym and stamp the blds in auch a way as to make them difficut to lmitate as the soldiers did for their eivil war this year. We don't have that 10,000 seat fleld house yet.

It has been rumored that both the President and Dean Jones are not in favor of giving expensive dances. They fear the worst, know we don't have the money, and to those older and saner heads the whole brawl looks silly.

Imagine of paying hundreds of fraction of the persons at those dollars for a "name band" to play proms is able to see what is going for three hours and then taking up on. RECORD HEN PASSES AT AGE OF 7 YEARS

By MARTHA MOORE

Weep for L-168! She died at the age of eight years Friday at the University poultry farm, where she had been in solitary for the past three weeks.

And oh, how L-168 will be missed for she was the third highest producing hen on record. During ner long life tlme, L-168 had laid 1,487 eggs, and the highest on record is only 1,516.

For seven years of her life she averaged laying 216 eggs per year, but she had only laid two eggs this season. This hen is considered very old in the poultry world, for an eight-year-old hen is equal to a 90-year-old human.

L-168 had been ill for three weeka, but a post mortem, per-formed by Dr. J. Holmea Martin and Dr. Floyd Hull revealed nothing in the way of diseases. So her

death was evidently due to old age The skeleton of this hen will be preserved and measurements taken Ace Brigode at the baton. Friday of the various bones for atatistical purposes.
